

How to Use the Range Plant Community Guides and Recovery Strategies Manuals for Project and Reclamation Planning in Grasslands

Wednesday March 6th, 2024, 10:00 – 17:00 at the Edmonton Convention Centre.

A Grassland Restoration Forum Pre- conference Workshop
hosted by the Canadian Land Reclamation Association

An understanding of the concepts of range ecology is an important skill for designing effective conservation and restoration of native grasslands. This one day, classroom-based course presents the theory behind the Range Plant Community Guide manuals and guided practice using them. It will provide context for: applying the results of data collected during pre-disturbance site assessment, development of a recovery strategy for impacts to native grasslands for development, and reclamation planning.

Our goal is to ensure that events and information are accessible to everyone. We rely on sponsorship to help with cost recovery and continuation of the Grassland Restoration Forum. Please contact us if you, or your organization are interested in providing support.

Event Sponsorship Opportunities

Sponsorship Level	Contribution	Recognition
Publications Sponsor	\$1,500 - 3,000	<ul style="list-style-type: none"> • Support the availability of up to 35 printed copies of the newly released 2nd Edition of the “Recovery Strategies for Industrial Development in Native Grasslands” document for participants. • Logo on slide show at the intro and at breaks (3 slides) • Opportunity for a pull up banner in the room • Verbal recognition at the event
